For managers – Gain **insight into your team**, enabling better leadership and decision-making.

For organisations – Understand the **make-up of your workforce** and drive **neuro-inclusive change**.

The simplest way for SMEs to create an inclusive workplace

For small and medium-sized businesses, inclusion is essential for growth, innovation and talent retention. If you are one of the many SMEs on a tight budget for diversity programmes, or without a dedicated HR team, real inclusion can seem a far-off dream.

That's where **Aubi-One** comes in.

Aubi-One is the only neurodiversity support tool designed to make workplace inclusion easy. We've made it purposefully easy for SMEs to get started; no lengthy onboarding, no complex consultancy, just on-demand education, assessments and support tools to help every employee thrive. And now, with Aubilities' self-serve packages, your SME can get started instantly.

▶ **No SME left behind**

Larger corporations are already investing in neurodivergent inclusion as part of their diversity programmes, but smaller businesses have the agility and culture to implement real change faster. Here's why it matters:

- **Boost productivity** – Employees who feel understood and supported perform better.
- **Improve retention** – Inclusive businesses keep their best talent.
- **Stand out to clients & partners** – Inclusion is a key factor in supplier selection for major brands.
